

Aspley East State School

Year 1 Curriculum Overview - Term 3

English

Students will engage with a variety of texts, including picture books, stories, and non-fiction, to develop their ability to express opinions. They will explore how texts are structured and use specific vocabulary to adapt content for different audiences. By responding to and creating texts, students will express their opinions using persuasive language. They will also participate in discussions and deliver short oral presentations, practising how to present their ideas clearly and persuasively to an audience.

Mathematics

Students will explore numbers beyond 100 and learn different ways to represent and work with them. They will solve everyday problems using addition, subtraction, sharing and grouping, and explain their thinking using materials or drawings.

They will also describe and sort 2D and 3D shapes and objects based on their features and recognise these in their environment. Students will make direct and indirect comparisons to measure length, mass, capacity and time using informal units (such as blocks or hand spans), and explain their reasoning in everyday situations.

Science

In this unit, students will explore sources of light and sound by manipulating materials to observe how they are produced. They will also investigate how changes can be made to alter light and sound effects.

Humanities and Social Sciences

In Humanities and Social Sciences (HASS), students will:

- Explore the characteristics of various locations (natural, managed and built)
- Observe and compare weather patterns across different places

The Arts

In Media Arts, students will explore how photographic portraits represent moments in time and how technology can be used to manipulate reality in media artworks.

Design Technologies

In Design Technology, students will describe how farms meet our needs and identify the plants and animals that provide us with essential resources.

Calendar and Events

P&C Disco - 25/7
EKKA Show Holiday - 13/8
Science Week Activities - 14/8
Book Week Dress Up Day - 18/8
School Photos - 19/8 - 21/8
Trevena Glen Excursion - 20/8 or 21/8
Father's Day Stall - 3/9
Student Free Day - 5/9
Parent Teacher Interviews - 8/9
Junior Sports Day - 16/9
Spring Holidays - 20/9
Term 4 begins Tuesday, 7/10

Health and Physical Education

Physical Education: Students will participate in cooperative games, develop their soccer skills, and take part in Sports Day training to build teamwork, coordination and overall fitness.

Health: Students will recognise similarities and differences among individuals and groups, and explore how strengths and achievements contribute to personal identity. They will identify and practise emotional responses that reflect their own and others' feelings.

Home Learning

Students are encouraged to:

- read for 15 minutes daily (Sunshine Online/library book)
- engage in online subscriptions such as Sunshine Online and Reading Eggs and Mathseeds.
