

Aspley East State School

Year 3 Curriculum Overview - Term 2, 2026

English

Students will engage with a variety of informative texts about topics of interest, or topics being studied in other learning areas. They will explore how information reports are typically structured and presented relevant to purpose. Students will examine how language features and images extend meaning. They will use these texts as models to create their own report.

Mathematics

Students will use strategies like partitioning and regrouping, building fluency with addition and place value. They will extend and apply addition and multiplication facts, developing automaticity for the 3, 4, 5, and 10 times tables. Students will use modelling to choose and apply calculation strategies, communicate solutions, and make estimates to check the reasonableness of their answers. They will learn to represent money values, understand the relationship between dollars and cents, and apply metric units to measure and compare events and durations.

Science

In this unit, students will investigate how heat energy is produced and the behaviour of heat when it transfers from one object or area to another.

Humanities and Social Sciences

Students will learn about our unique communities. In this unit, students will:

- identify individuals, events and aspects of the past that have significance in the present
- explore the importance of different celebrations and commemorations to different groups

The Arts

Students will focus on viewing, responding and performing in dance. They will learn about different cultural dances and how they are used as a form of celebration. Students will also develop the skills required to perform a dance.

Digital Technologies

Students will explore how text, numbers, sounds and images are shared between digital systems. They will learn how symbols and images represent data and practise showing the same information in different ways. Students will also investigate safe online behaviours and learn guided ways to collaborate and share content responsibly.

Calendar and Events

- Mother's Day Stall - 6/5 & 7/5
- Donut Day - 21/5
- Chappy's Colour Run - 29/5
- Wacky hair/sock fundraiser - 12/6
- Beats & Eats Community Event - 20/6
- Athletics Day - 24/6 & 25/6
- NAIDOC Assembly & Activities - 26/6
- Last day of term - 26/6
- Report Cards emailed home Term 3

Health and Physical Education

In Physical Education, students will participate in skill development for Athletics Day.

In Health, students interpret health information to apply strategies that enhance their own health and the health of others.

Home Learning

Students are encouraged to:

- read for 10 -15 minutes daily
- consolidate recall of multiplication facts
- engage with the following online subscriptions: Reading Eggs and IXL
