

# Aspley East State School

## Prep Curriculum Overview - Term 3, 2024

### English

Students will engage with texts featuring everyday happenings. They will read and comprehend simple decodable texts, picture books and traditional stories. Through these texts, students will develop vocabulary related to everyday experiences and learn to express and sequence thoughts and feelings when retelling events. They will participate in shared and independent writing activities to create short texts that retell events and express their ideas.

### Mathematics

In Mathematics, students are going to explore connecting number names, numerals and quantities, including zero, initially up to 20 and then beyond. They will connect events to days of the week. Students will explore directional and positional language used to describe location.

### Science

In Science this term, students will investigate materials and their observable properties using their senses. They will explore why materials are selected for specific purposes.

### Humanities and Social Sciences

Students will recognise that places can be represented on maps and models. They will explore 'places' they belong to and observe the features of familiar places. Students will suggest ways they can care for a familiar special place.

### The Arts

Students will experiment with different materials, techniques and processes to make artworks.

### Health and Physical Education

In Health, students will participate in an 'I am safe' unit to identify actions and behaviours that enhance safety and well-being. In Physical Education, students will demonstrate personal and social skills by engaging in collaborative active games and developing their abilities for Junior Sports Day.
