

## **P&C Representative Sporting Contribution**

### **Rational:**

Aspley East State School Community is a strong advocate for primary school sports. The Aspley East State School P&C Association recognises the costs to parents associated with students representing the school at State levels. As such the Aspley East State School P&C Association offers limited financial assistance to families to assist with ensuring every student has the opportunity to achieve high levels of sporting success.

### **Funding accessible:**

- 20% of the total costs (up to a maximum of \$200 per sport and \$400 total per student per calendar year)
- Only student expenses are claimable
- Tax invoices are required
- Funding is for Education Queensland managed State Level achievements only.

### **Eligibility requirements:**

- Families must apply PRIOR to the event by written letter to the president of the P&C association. (funding is not automatic).
- Families must have participated in the School Student Resource Levy.
- Student must complete a thank-you letter and a small report of the event to the P&C within one month of returning.

This policy was ratified at the October 2016 meeting of the Aspley East State School P&C Association and effective immediately.
